

A person in a light blue shirt is sitting at a desk, looking thoughtful with their hand on their chin. A computer mouse is on the desk in front of them. The background is a plain, light-colored wall.

simplicity

poweredbycisco.

Do more with less. Simplify with the innovative routing solution that integrates voice, video, and data to help you streamline operations, reduce costs, and boost productivity.

Focus on your business, and let Cisco take care of your network, voice, and data needs.

A&E Computer Solutions, Inc.
P.O. Box 1528

Kingston, PA 18704

To be more cost-efficient, competitive, and agile, your technology investments require a flexible, integrated, and secure foundation that can keep pace with changing business needs.

A&E Computer Solutions, Inc. is offering a new portfolio of purpose-built platforms that streamlines operations, reduces costs, boosts productivity, and simplifies your day.

Cisco Systems® offers a secure, integrated network access solution that provides the fastest and most cost-effective technology migration path—allowing your business to respond quickly to changing business needs. The routers are right-sized to meet your needs at a price you can afford.

- Take advantage of cost savings by running your voice services over your data line with the same quality as traditional systems
- Improve operational efficiencies and productivity, resulting in reduced costs
- Operate on a flexible foundation that is adaptable for your growing business
- Protect your business assets with embedded security
